Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions:

After inventing dynamite, Swedish-born **Alfred Nobel** became a very rich man. However, he **foresaw** its universally destructive powers too late. Nobel preferred not to be remembered as the inventor of dynamite, so in 1895, just two weeks before his death, he created a fund to be used for awarding prizes to people who had made **worthwhile** contributions to humanity. Originally, there were five awards: literature, physics, chemistry, medicine, and peace. Economics was added in 1968, just sixty-seven years after the first awards ceremony.

Nobel's original **legacy** of nine million dollars was invested, and the interest on this sum is used for the awards which vary from \$30,000 to \$125,000.

Every year on December 10, the Anniversary of Nobel's death, the awards (gold medal, illuminated diploma, and money) are presented to the winners. Sometimes politics plays an important role in the judges' decisions. Americans have won numerous science awards, but relatively few literature prizes. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions:

After inventing dynamite, Swedish-born *Alfred Nobel* became a very rich man. However, he **foresaw** its universally destructive powers too late. Nobel preferred not to be remembered as the inventor of dynamite, so in 1895, just two weeks before his death, he created a fund to be used for awarding prizes to people who had made **worthwhile** contributions to humanity. Originally, there were five awards: literature, physics, chemistry, medicine, and peace. Economics was added in 1968, just sixty-seven years after the first awards ceremony.

Nobel's original **legacy** of nine million dollars was invested, and the interest on this sum is used for the awards which vary from \$30,000 to \$125,000.

Every year on December 10, the Anniversary of Nobel's death, the awards (gold medal, illuminated diploma, and money) are presented to the winners. Sometimes politics plays an important role in the judges' decisions. Americans have won numerous science awards, but relatively few literature prizes. No awards were presented from 1940 to 1942 at the beginning of *World War II*. Some people have won two prizes, but this is rare; others have shared their prizes.

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions:

According to airline industry statistics, almost 90 percent of airline accidents are survivable or partially survivable. But passengers can increase their chances of survival by learning and following certain tips. Experts say that you should read and listen to safety instructions before take-off and ask questions if you have uncertainties. You should fasten your seat belt low on your hips and as tightly as possible. Of course, you should also know how the release mechanism of your belt operates. During take-off and landings you are advised to keep your feet flat on the floor.

Before take-off you should locate the nearest exit and an alternative exit and count the rows of seat between you and the exits so that you can find them in the dark if necessary. In the event that you are forewarned of the possible accident, you should put your hands on your ankles and keep your head down until the plane come to complete stop.

If smoke is present in the cabin, you should keep your head low and cover your face with napkins, towels, or clothing. If possible, wet these for added protection against smoke inhalation. To **evacuate** as quickly as possible, follow crew command and do not take personal belongings with you. Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions:

According to airline industry statistics, almost 90 percent of airline accidents are survivable or partially survivable. But passengers can increase their chances of survival by learning and following certain tips.

Experts say that you should read and listen to safety instructions before take-off and ask questions if you have uncertainties. You should fasten your seat belt low on your hips and as tightly as possible. Of course, you should also know how the release mechanism of your belt operates. During take-off and landings you are advised to keep your feet flat on the floor.

Before take-off you should locate the nearest exit and an alternative exit and count the rows of seat between you and the exits so that you can find them in the dark if necessary. In the event that you are forewarned of the possible accident, you should put your hands on your ankles and keep your head down until the plane come to complete stop.

If smoke is present in the cabin, you should keep your head low and cover your face with napkins, towels, or clothing. If possible, wet these for added protection against smoke inhalation. To **evacuate** as quickly as possible, follow crew command and do not take personal belongings with you. Do not jump on escape slides before they are fully **inflated** and when you jump, do so with your arms and legs extended in front of you. When you get to the ground, you should move away from the plane as quickly as possible, and never smoke near the wreckage.

Read the following passage and mark the letter A, B, C, or D on your answer sheet to indicate the correct answer to each of the questions:

After inventing dynamite, Swedish-born *Alfred Nobel* became a very rich man. However, he **foresaw** its universally destructive powers too late. Nobel preferred not to be remembered as the inventor of dynamite, so in 1895, just two weeks before his death, he created a fund to be used for awarding prizes to people who had made **worthwhile** contributions to humanity. Originally, there were five awards: literature, physics, chemistry, medicine, and peace. Economics was added in 1968, just sixty-seven years after the first awards ceremony.

Nobel's original **legacy** of nine million dollars was invested, and the interest on this sum is used for the awards which vary from \$30,000 to \$125,000.

Every year on December 10, the Anniversary of Nobel's death, the awards (gold medal, illuminated diploma, and money) are presented to the winners. Sometimes politics plays an important role in the judges' decisions. Americans have won numerous science awards, but relatively few literature prizes. No awards were presented from 1940 to 1942 at the beginning of *World War II*. Some people have won two prizes, but this is rare; others have shared their prizes.

Question 38: *What is the main idea of this passage?*
